

## Electricity Demand in June 2008 (Bulletin)

### Demand Overview (Total Sales of 10 Power Companies)

Electricity demand in June 2008, measured in terms of the total electricity sales of the 10 power companies, was down 0.2% on last year to 69.9 billion kWh.

Outside the liberalized segment, lighting demand declined by 0.3% due principally to a combination of decreased demand for cooling caused by generally lower temperatures in June compared with last year, and a shorter meter-reading period than last year.

Commercial demand in the liberalized segment decreased by 1.1%.

### (Reference)

Large industrial demand was up year on year for the 35th consecutive month, increasing by 2.2%.

This was due principally to year-on-year growth in all major sectors, except textiles.
